- ✓ AMG Employee Management Systems License for 50 Employees, 2 Users (Expandable).
- ✓ 1 Break Complaint HandPunch HP1000 XL.
- ✓ 50ft RS232 Communication Cable.
- ✓ Power Transformer.
- ✓ Wall Mount.
- ✓ Hardware Manual.
- ✓ One-Year Warranty.

About AMG Time Management Attendance System

AMG Attendance System is a user-friendly, flexible and full featured employee management tool which allows controlling your employees' attendance by automating timekeeping and attendance tracking. It captures data from electronic data terminals such as Badge Readers, Fingerprints Readers, Biometric Hand Readers which includes the HandPunch HP1000 XL and simultaneously allows optional PC entry. Based on those IN and OUT punches polled from the devices, it automatically calculates employees' working time and wages. Paired with the Schlage Biometric Break Compliant HandPunch HP1000 XL, the new attendance system will help employers comply with labor "break" and "meal" laws.

AMG Employee Management Attendance System can help you by:

- ✓ Reducing time needed to verify attendance data
- ✓ Reducing payroll processing time and cost
- ✓ Eliminating mistakes in calculating worked hours and wages
- ✓ Eliminating unauthorized overtime
- ✓ Automatically generating and emailing reports and payroll exports.

What are the Benefits for your Business?

- ✓ Better control of labor force
- ✓ Improved work productivity
- ✓ Better control over cost distribution
- ✓ Efficient use of human and financial resources

HandPunch HP1000 XL

Break Compliant HandPunch Line

Schlage is pleased to announce the new line of HandPunch HP1000 XL readers that is now capable of complying with labor "break" laws that have been adopted by more than 20 states. These labor laws

are in place to regulate on-the-job meals and breaks for employees. When integrated with the [AMG Employee Attendance Software](#), the Schlage HandPunch HP1000 XL "Break Compliance" capability will make it possible for employers to comply with laws relating to meals and breaks, avoiding potential fines and lawsuits. To ensure each employee takes a full 30 minutes of lunch or 10 minutes of break periods the Break compliant HandPunch HP1000 XL will reject the employee from clocking back to work before the full duration has expired.

When You Want To Cut Time and Attendance Costs...Do It By Hand

Schlage biometrics brings the accuracy and convenience of biometric technology easily within reach of any time and attendance application with the HandPunch HP1000 XL. In operations that range from coal mines to clean rooms, the Schlage HandPunch HP1000 XL has proven itself to be a practical and precise solution for employee time management and access control.

Our Biometric Time Clock, Hand Scanner, Works by Identifying Employees' Hand Geometry Instantly

Schlage HandPunch HP1000 XL identifies the employee by the unique size and shape of their hand. This means your employees will no longer need to carry cards or keys. The costs and risks associated with credentials that can be lost, stolen or duplicated without authorization is also eliminated. Schlage HandPunch HP1000 XL Recognition Systems also eliminates time fraud by making it virtually impossible to "buddy punch." The result is more accuracy, productivity and profitability for your company.

Your Hand Is Your Card

With our biometric time clock Hand Punch HP1000 XL ; there are no cards to create, administer, carry - or lose. For mid-size companies, the Hand Punch HP1000 XL provides a high return on investment by eliminating the cost associated with administering and managing cards. For companies that have single or multiple locations and face the daily occurrence of buddy punching, the Schlage HandPunch HP1000 XL will eliminate employee time theft instantly.

Affordable Ethernet Solution

Recognition Systems HandPunch HP1000 XL comes standard with serial RS232 connection allowing for quick integration into your time management systems, applications and existing network infrastructure.

Hand Geometry Technology

The HandPunch HP1000 XL uses Schlage's field-proven hand geometry biometric technology. The terminal captures an image of the hand each time the employee punches. The hand's size and the shape are used to verify their identity with unparalleled accuracy. No fingerprints or palm prints are taken. The technology works well indoor as well as in harsh environments.

Antimicrobial Protection

Every HandPunch HP1000 XL biometric hand reader contains a silver-based anti-microbial agent-which is embedded into the materials used to produce the platen, providing a finish that inhibits the growth of a broad spectrum of bacteria, mold, and fungi and remains active for the life of the HandPunch HP1000 XL.

Hand Outline

The HandPunch HP1000 XL comes standard with a blue hand outline printed on the platen. This hand outline helps new users place their hand accurately on the platen thus decreasing initial enrollment time and better enrollment quality. It also includes the Ingersoll Rand Schlage Biometrics logo.
