About AMG Attendance Tracking HandPunch Software Package:

AMG Time and Attendance Software is a user-friendly, flexible and full featured employee management tool which allows controlling your employees' attendance by automating timekeeping and attendance tracking. It captures data from electronic data terminals such as Badge Readers, Fingerprints, Biometric HandPunches which includes the HandPunch HP2000 XL and simultaneously allows optional PC entry. Based on those IN and OUT punches polled from the devices, it automatically calculates employees' working time and wages.

AMG Time Management HandPunch Software Can Help You By:

- ✓ Reducing time needed to verify attendance data
- ✓ Reducing payroll processing time and cost
- ✓ Eliminating mistakes in calculating work hours and wages
- ✓ Eliminating unauthorized overtime
- ✓ Automatically generating reports and payroll exports

What are the Benefits for your Business?

- ✓ Better control of labor force
- ✓ Improved work productivity
- ✓ Better control over cost distribution
- ✓ Efficient use of human and financial resources

Please Note: The Schlage HandPunch HP2000 XL has a maximum capacity of 512 Employees, it cannot be expanded.

HandPunch HP2000 XL Biometric Hand Scanner

Break Compliant HandPunch Line

Schlage is pleased to announce our new line of readers that is now capable of complying with labor "break" laws that have been adopted by more than 20 states. These labor laws are in place to regulate on-the-job meals and breaks for employees. When integrated with the AMG Employee Attendance Software, the Schlage HandPunch HP2000 XL "Break Compliance" capability will make it possible for employers to comply with laws relating to meals and breaks, avoiding potential fines and lawsuits. To ensure each employee takes a full 30 minutes of lunch or 10 minutes of break periods the Break compliant HandPunch HP2000 XL will reject the employee from clocking back to work before the full duration has expired.

When you want to cut time and attendance costs...do it by hand

Schlage Biometrics brings the accuracy and convenience of biometric technology easily within reach of any time and attendance application with the HandPunch HP2000 XL. In operations that range from coal mines to clean rooms, the Schlage HandPunch HP2000 XL has proven itself to be a practical and precise solution for employee time management and access control.

Our biometric Time Clock, Hand Scanner, Works by Identifying Employees' Hand Geometry Instantly

Schlage HandPunch HP2000 XL identifies the employee by the unique size and shape of their hand. This means your employees will no longer need to carry cards or keys. The costs and risks associated with credentials that can be lost, stolen or duplicated without authorization is also eliminated. Schlage HandPunch HP2000 XL Recognition Systems also eliminates time fraud by making it virtually impossible to "buddy punch." The result is more accuracy, productivity and profitability for your company.

Your Hand Is Your Card

With our biometric time clock HandPunch HP2000 XL; there are no cards to create, administer, carry - or lose. For mid-size companies, the HandPunch HP2000 XL provides a high return on investment by eliminating the cost associated with administering and managing cards. For companies that have single or multiple locations and face the daily occurrence of buddy punching, the Schlage HandPunch HP2000 XL will eliminate employee time theft instantly.

Affordable Ethernet Solution

Recognition Systems HandPunch HP2000 XL comes standard with serial RS232 connection allowing for quick integration into your time management systems, applications and existing network infrastructure. Additionally you can upgrade to Ethernet (TCP/IP) as well.

Hand Geometry Technology

The HandPunch HP2000 XL uses Schlage's field-proven hand geometry biometric technology. The HandPunch HP2000 XL captures an image of the hand each time the employee punches. The hand's size and the shape are used to verify their identity with unparalleled accuracy. No finger or palm prints are utilized. The technology works well indoor as well as in harsh environments.

Programmable Data Management Keys

The HandPunch HP2000 XL has two user-definable data management keys that let you collect data as employees punch. Common uses include department transfers, tips collected, job codes, or pay codes.

Antimicrobial Protection

The HandPunch HP2000 XL biometric hand scanner contains a silver-based anti-microbial agent-which is embedded into the materials used to produce the platen, providing a finish that inhibits the growth of a broad spectrum of bacteria, mold, and fungi and remains active for the life of the HandPunch HP2000 XL.

Hand Outline

The HandPunch HP2000 XL comes standard with a blue hand outline printed on the platen. This hand outline helps new users place their hand accurately on the platen thus decreasing initial enrollment time and better enrollment quality. It also includes the Ingersoll Rand Schlage Biometrics logo.
