

External HID Proximity Badge Reader

Price: \$350.00

Manufacturer:

Description

HID External Proximity Readers are affordable ID Badge Reader that integrates seamlessly in any time and attendance environment. HID External Proximity Reader are designed to hold up in many environments. Regardless of the environment HID External Proximity Badge Readers performance is always reliable.

HID External Proximity Badge Readers are programmed with millions of unique codes insuring increased security and absolutely no duplication of cards. An HID token is read by holding it in front of the external HID Proximity Reader. Once a token has been read the employee database has been updated and a record of their punch in or punch out is noted.
